

A FRESH, YOUTHFUL LOOK WITHOUT DOWNTIME.

Simple, Effective, Affordable Proactive Treatments

> Help keep your skin looking its youthful best with simple and easy Clear + Brilliant treatments.

What Can the Clear + Brilliant Laser Do for You?

> If you're battling the effects aging can have on your skin, or trying to address it before the battle even starts, Clear + Brilliant can help. With simple, gentle laser treatments provided by your licensed skincare professional, you can help prevent the visible signs of aging and address the overall dulling effects time and the environment can have on your skin.

> One 15- to 20-minute Clear + Brilliant session* can leave your skin feeling smoother and give you that "radiant glow" that comes from healthy-looking, younger-looking skin. Routine treatments deliver lasting results that keep others guessing your secret.

Treatment Results:

Though results vary, patients frequently report younger looking skin and a radiant glow after treatment. Clinical studies highlights include:

- > Improvement in the look of fine lines
- > Reduction in the appearance of pores
- > Improvement to skin tone and texture
- > Improvement in skin's overall appearance

Starting a Clear + Brilliant routine is easy:

- > Quick and gentle treatments
- > Nonsurgical and non-invasive
- > Little to no social downtime
- > Glowing, youthful looking skin

"I can enjoy life because I know I have great looking skin."

INDICATION

Clear + Brilliant Laser System (1440nm and 1927nm handpieces) is indicated for dermatological procedures requiring the coagulation of soft tissue and general skin resurfacing.

IMPORTANT SAFETY INFORMATION

- The following contraindications are routine for many laser treatments and may also be associated with non-ablative Clear + Brilliant Laser System treatments. You may not be an appropriate candidate for a treatment if you:
 - Have been diagnosed with or possibly have actinic keratosis, melasma, rosacea, or other significant skin conditions (e.g., skin cancer, active infections, cold sores, open wounds, rashes, burns, inflammation, eczema, psoriasis);
 - Are predisposed to keloid formation or excessive scarring;
 - Have a condition that may compromise the immune system, such as HIV, lupus, scleroderma, or systemic infections;
 - Have a known sensitivity to light or if you are taking photosensitizing agents or medications;
 - Are on systemic steroids (e.g., prednisone, dexamethasone), which should be rigorously avoided prior to and throughout the course of treatment;
 - Are using retinoids, which should be avoided for at least 2 weeks prior to and during treatment;
 - Are undergoing isotretinoin acne treatment or taking drugs in a similar class;
 - Have skin that is still recovering from a cosmetic procedure, such as a chemical or mechanical peel, or laser resurfacing; and
 - Have had botulinum toxin injections, or dermal fillers (such as collagen or hyaluronic acid) within the past 2 weeks.

WHAT TO EXPECT.

- > The Clear + Brilliant laser system is based on advanced technology, but getting Clear + Brilliant treatments is simple. All treatments begin with a consultation with your licensed health care professional to see if Clear + Brilliant is right for you – and to pinpoint some of the key trouble spots it can help address. From there, your provider can recommend a Clear + Brilliant treatment regimen that's right for you.

A Typical Clear + Brilliant Treatment:

- > Requires about 30 minutes for a complete session
- > May involve application of topical numbing cream to your face prior to treatment in order to provide additional comfort
- > Is delivered by your skin care professional, who will gently guide the Clear + Brilliant handpiece across the target area and actively treat your skin for approximately 15-20 minutes
- > Utilizes the patented Intelligent Optical Tracking® technology to ensure your skin health care professional maintains proper contact with your skin and provides a uniform application to all treated areas
- > With Clear + Brilliant Perméa® treatments, a topical antioxidant serum can or might be applied to the skin immediately after treatment. A refreshing biocellulose masque may also be applied for 10-15 minutes after treatment

Individual results may vary. Unretouched photos.
